Account Executive

June 2016 - April 2018 (1 year 11 months)  
Austin, Texas Area

I am responsible for developing strategic relationships and business & IT leaders in local government to improve the lives of citizens in Austin, Dallas, Fort Worth, San Antonio, El Paso, and Corpus Christi. I manage a \$50M portfolio of business and lead a highly experienced team to maximize value for our clients using our technology products and cloud services. My responsibilities include revenue, client satisfaction, consumption of cloud services, orchestrating teams of specialists, and development and expansion of Executive relationships.

Regional Technology Manager - Azure  
March 2015 - June 2016 (1 year 4 months)

Responsible for helping Microsoft's largest customers realize business value through industry solutions based on the azure platform. In this role I cover the

full solution cycle including business envisioning, business case development, solution architecture, and successful implementation and adoption. I'm also responsible for identifying organizational, technical, and operational issues that can be addressed to improve Microsoft's effectiveness in servicing its customers.

#### Enterprise Architect

January 2014 - March 2015 (1 year 3 months)

I work within Microsoft's Enterprise Strategy Practice. The goal of this practice is to help Microsoft's most strategic clients achieve value through successful completion of business transformation oriented projects by using the disciplines of enterprise architecture, portfolio management, business strategy, and value realization.

I am currently:

1. Lead Architect for large global Team for a Tier 1 Investment bank, building an innovative industry-leading interactive market risk management application for the Chief Risk Officer and top 40 Risk officers.
2. Building a business engagement framework for a global insurance firm to quickly align and plan collaboration and social assets from IT shared services to business objectives for maximum impact.
3. Defining the business value of collaboration & social for a global insurance firm and leading the adoption & change management planning and execution.

#### Global Technology Advisor for UBS AG

July 2010 - December 2013 (3 years 6 months)

I am globally responsible for the technical relationships between Microsoft and UBS up to CIO level. I am also globally responsible for ensuring the firm realise the full value of their investment in Microsoft technology.

#### Senior Technical Account Manager

July 2007 - July 2010 (3 years 1 month)

I am responsible for the relationship and service delivery between Microsoft and Premier Support customers within assigned accounts.

#### Computacenter Services

##### Distributed Computing Solutions Specialist

December 2005 - June 2007 (1 year 7 months)
